**Introduction**

Working remotely is becoming increasingly popular – Many video conferencing systems are used today and easy to use; laptops, meeting rooms, boardrooms, telepresence rooms, and more...

In this discussion, we have defined an easy concept to install a Video Conferencing system for a medium size meeting room or elsewhere; which is flexible and mobile. (see page 3, 4)

**Advantages of Video Conferencing (VC)**

**Strengthens office relationships:** Getting face time, better than just a phone call.

**Save money:** Save traveling cost

**Time:** Save time by not traveling

**Productivity,** Meet when needed, don't wait until next trip, meeting is scheduled

**Convenience:** With today's technology, it's easy to get connected everywhere.

*videoconferencing is a great supplement (not replace) face-to-face meetings*

**Examples of VC systems**

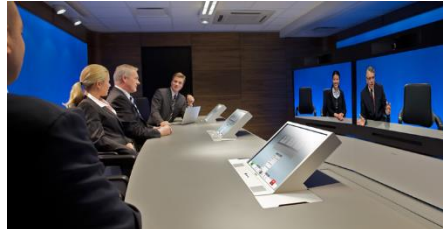

VC on laptop, PC

VC in Smartphones, tablets

VC in meeting room

VC in Telepresence room

VC in Boardroom, large meeting room

VC in Touchdown or Pod

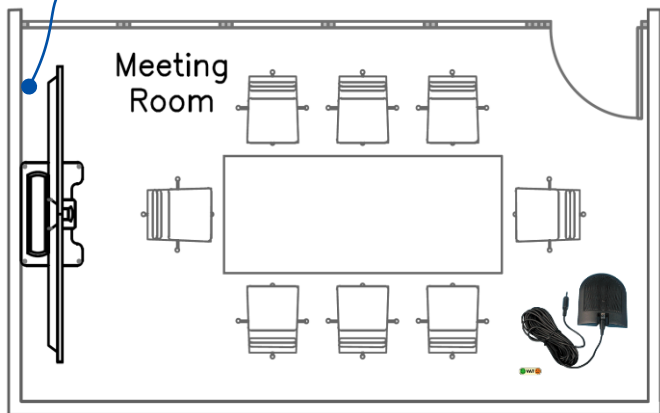

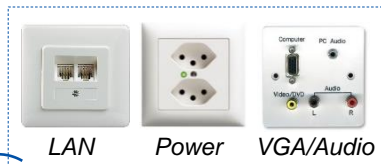

VC Mobile system

See page 3 for more details

**Video Conferencing furniture**

*Ultimate flexibility for your video conferencing options*

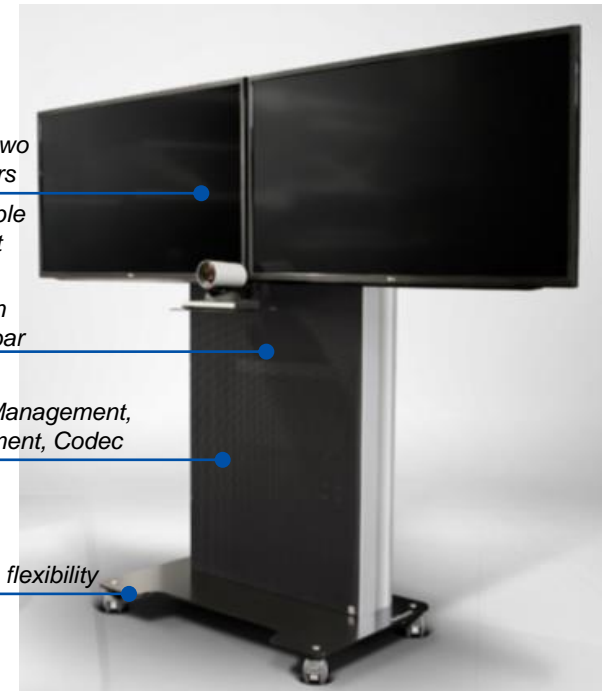

- ✓ To use a VC furniture on wheels, no heavy cable works in walls
- ✓ Easy installation
- ✓ Easy to move around
- ✓ Modern design
- ✓ Cable management and codec equipment fit in the furniture
- ✓ Built in sound bar, mobile table microphone
- ✓ Needs only nearby outlets: LAN, Power VGA/Audio to table (option)

*Fit perfectly in a medium size meeting room*

*Single Screen, model shown by [www.audipack.com](http://www.audipack.com) model VCF-SL1*

*One or two monitors*

*Adjustable height*

*Built-in Sound bar*

*Cable Management, Equipment, Codec*

*Ultimate flexibility*

*Double Screen, model shown by [www.audipack.com](http://www.audipack.com) model VCF-SL2*

## Easy implementation

*Ultimate flexibility for your video conferencing options*

- ✓ Just bring one unit on a meeting room, or by a cluster of desks - Plug and play
- ✓ A unit is not working, bring in a spare one
- ✓ Need to quickly install a unit by the break-out area for an urgent broadcast
